

Dear Parents/Guardians:

The lunch point of sale system that the district is implementing has many features which will help the district better track what students are eating. One feature is the ability to specify how students may spend the money in their accounts. As we begin to fully implement the system, we will inform you as new features are made available.

You may specify whether to allow the money in your student's account to be spent on regular/tier lunch and breakfast only.

Please sign, date and return this letter to school, if you want to restrict money in your student's account to regular/tier lunch and breakfast only.

I _____(parent/guardian),
request that money placed on account for
_____(child) be used to purchase only one
regular/tier lunch and breakfast per day.

Parent's Signature _____
Date _____

Your student will still be allowed to purchase other items from the cafeteria; however he/she will be required to pay cash for those items and will not be allowed to use money from their account.

If you have any questions or concerns, please contact your child's school office.
